

Brr! Banana splits are a cold and delicious treat. A banana split looks like a sled and has two long bananas. It feels freezing cold.

when it comes out of  
the freezer and wet when  
it melts. A banana split smells  
so bananaey you can not  
resist a banana split.

Banana splits make a plop  
sound when they fall on  
the floor. A banana split has  
all sorts of ice cream  
flavors and a creamy taste.
